PREFACE.

17.1533

The usual time for a new edition of the HAVERHILL AND BRADFORD DIRECTORY has again come, and we present No. 9 of the regular series to our patrons, with the confidence of its welcome reception by them, as well as by the public generally.

As cities grow in importance and population, the directory increases in value, as a book of reference, until large cities could not possibly get along without their annual publication. A good directory is a great benefit to a place, not only to the citizens, but to strangers and visitors, who are constantly referring to its pages for information of some kind. We also often receive orders from distant parts of the country for our directories, which shows that their circulation is not necessarily limited to the cities they represent.

The canvass this year shows a large increase of names over that of the last number, as will be seen by the figures given below:

Names in 1880,	7,359
Names in 1878,	6,051
	Specimen of the section of the

Increase over last edition, 1,308

We wish especially to call the attention of persons using the directory, to the importance of knowing the precise spelling of a name, before looking for it, as the same names, by being spelled in various ways, will appear on different pages, and at quite a distance from each other.

Our agents have received the usual courteous attention from all with whom they have come in contact, while obtaining the information for this number, and with many thanks for the same,

We remain, very respectfully,

W. A. GREENOUGH & CO.,

April, 1880.
